

There

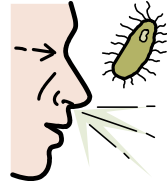

is

a

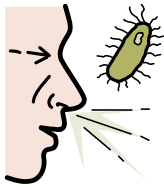

new

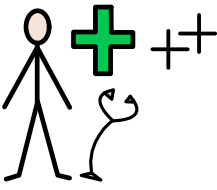

virus

called

Corona

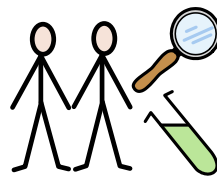

Virus.

Doctors

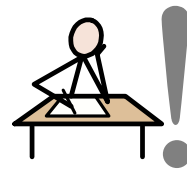

and

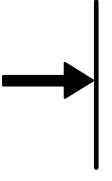

scientists

are

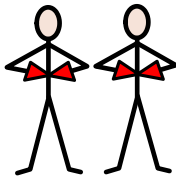

working hard

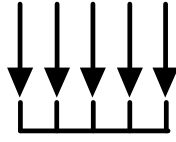

to

keep

us

all

healthy

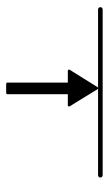

and

safe

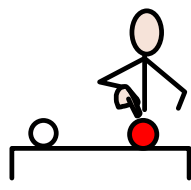

and

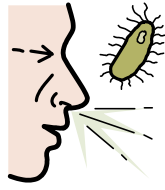

to

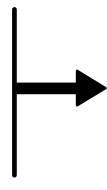

prevent

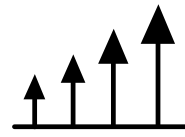

this

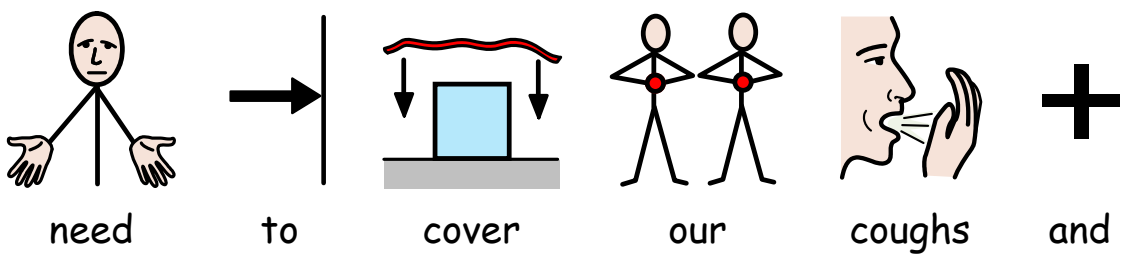

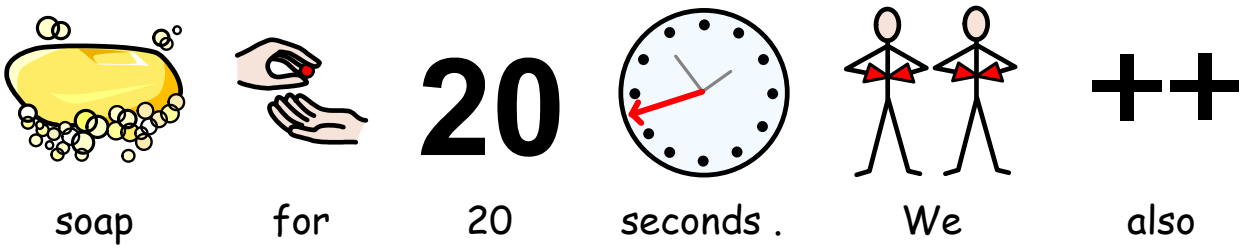

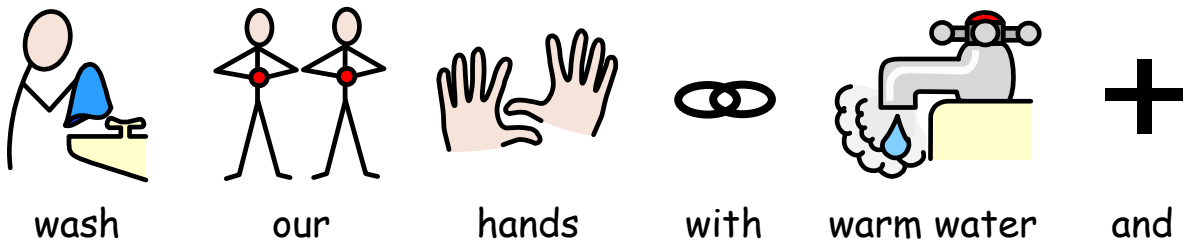

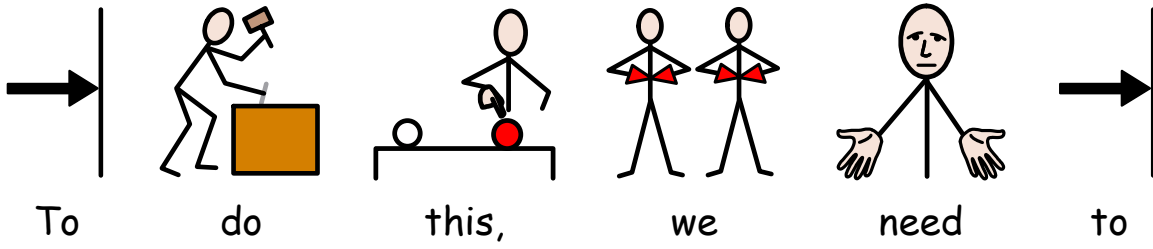

virus

from

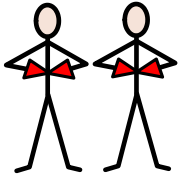

growing.

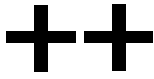

sneezes.

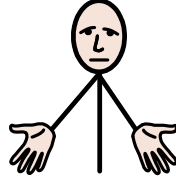

We

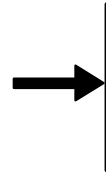

also

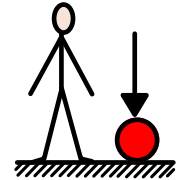

may

need

to

stay

home

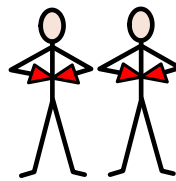

and

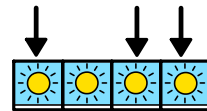

avoid

places

we

usually

go

and

enjoy,

like

restaurants

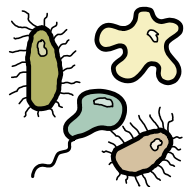

and

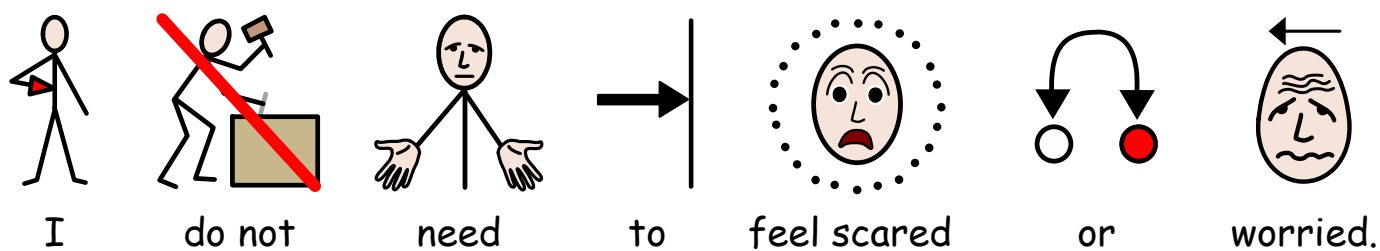

shops .

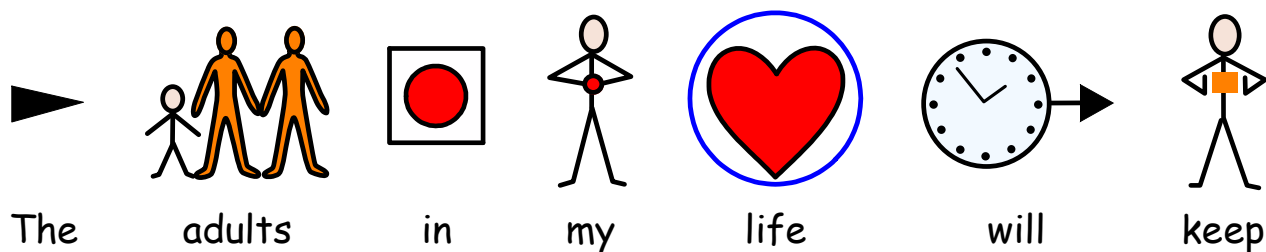

This is to help stop the spread of

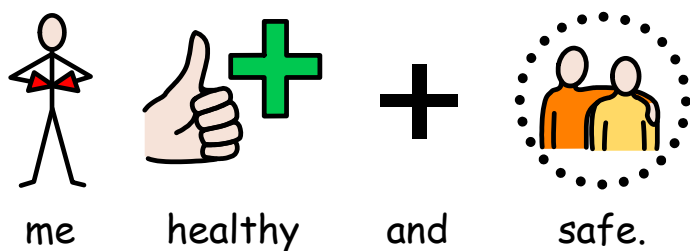

germs.

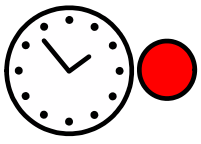

I do not need to feel scared or worried.

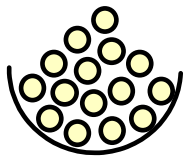

The adults in my life will keep

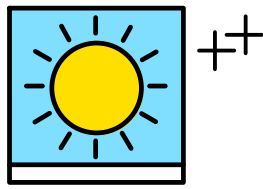

me healthy and safe.

After

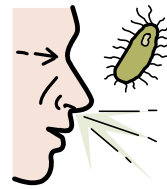

many

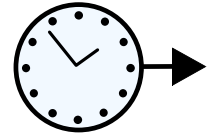

days,

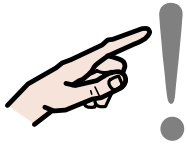

the

virus

will

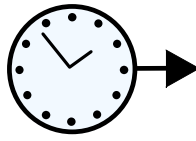

go away

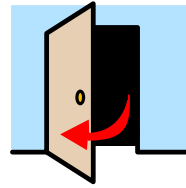

and

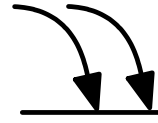

school

will

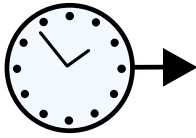

open

again.

I

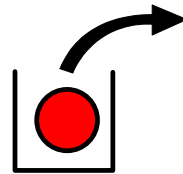

will

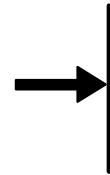

be able

to go

out

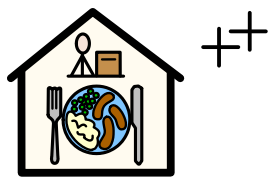

to

shops

and

restaurants!
